ADMINISTRATION & FACULTY

It has been a pleasant experience to come back to the school where I first started my teaching career. Though the years have made changes in school life since I was last here, basically many things are as they were. The continued effort of our faculty to prepare the young men for a place in our industrial society still is the same. The desire of most students to profit from the experience of their teachers is still evident.

With the cooperation of all members of our staff and student body, I am looking forward to many happy, successful years for our school.
